

Minutes

Meeting Title: Meeting2

Date: 06/04/2022

Project Steps

1. Generate the dataset

Trace → [A - E - C - R(+) - AMOX - CH
A - E - AMOX - CH
A - E - PNC - CH.
A - E - C - R(+) - PNC - CH.]

2. Find the timestamp events in the dataset and filter them based on the things that we need to care
3. Describe the variability across the traces (the most challenge)
4. Get the data with the right shape

Task

1. familiar with the dataset
2. Read the paper about the project
3. Process the dataset
